

Seznam literatury

- Beran, V., Matlova, L., Dvorska, L., Svastova, P., & Pavlik, I. (2006). Distribution of *Mycobacteria* in clinically healthy ornamental fish and their aquarium environment. *Journal of Fish Diseases*, 29, 383–393.
- Broussard, G. W., Norris, M. B., Schwindt, A. R., Fournie, J. W., Winn, R. N., Kent, M. L., & Ennis, D. G. (2009). Chronic *Mycobacterium marinum* infection acts as a tumor promoter in Japanese Medaka (*Oryzias latipes*). *Comparative Biochemistry and Physiology – C Toxicology and Pharmacology*, 149, 152–160.
- Di Cicco, E., Tozzini, E. T., Rossi, G., & Cellerino, A. (2011). The short-lived annual fish *Nothobranchius furzeri* shows a typical teleost aging process reinforced by high incidence of age-dependent neoplasias. *Experimental Gerontology*, 46, 249–256.
- Dyková, I., Žák, J., Reichard, M., Součková, K., Slabý, O., Bystrý, V., & Blažek, R. (2021a). Histopathology of laboratory-reared *Nothobranchius* fishes: Mycobacterial infections versus neoplastic lesions. *Journal of Fish Diseases*, 44, 1179–1190.
- Dyková, I., Žák, J., Reichard, M., Součková, K., Slabý, O., & Blažek, R. (2021b). Swim bladder as a primary site of mycobacterial infection in *Nothobranchius* ‘belly sliders’. *Diseases of Aquatic Organisms*, 145, 111–117.
- Gvoždík, L. (2018). Just what is the thermal niche? *Oikos*. Blackwell Publishing Ltd December 1, 2018, pp. 1701–1710, doi:10.1111/oik.05563.
- Hadamová, M., & Gvoždík, L. (2011). Seasonal acclimation of preferred body temperatures improves the opportunity for thermoregulation in newts. *Physiological and Biochemical Zoology*, 84, 166–174.
- Hochberg, M. E., & Noble, R. J. (2017). A framework for how environment contributes to cancer risk. *Ecology Letters*, 20, 117–134.
- Kent, M. L., Whipps, C. M., Matthews, J. L., Florio, D., Watral, V., Bishop-Stewart, J. K., ... Bermudez, L. (2004). Mycobacteriosis in zebrafish (*Danio rerio*) research facilities. *Comparative Biochemistry and Physiology – C Toxicology and Pharmacology* (pp. 383–390). Elsevier Inc.

- Polačik, M., Blažek, R., and Reichard, M. (2016). Laboratory breeding of the short-lived annual killifish *Nothobranchius furzeri*. *Nat. Protoc.* 11, 1396–1413. doi: 10.1038/nprot.2016.080.
- Žák, J., Anil, A. N., & Dyková, I. (2023). Dissolved oxygen saturation is crucial for gas bladder inflation in turquoise killifish (*Nothobranchius furzeri*). *Environmental Biology of Fishes*, 106, 673–683.
- Žák, J., Reichard, M., & Gvoždík, L. (2018). Limited differentiation of fundamental thermal niches within the killifish assemblage from shallow temporary waters. *Journal of Thermal Biology*, 78, 257–262.
- Žák, J., Dyková, I., & Reichard, M. (2020). Good performance of turquoise killifish (*Nothobranchius furzeri*) on pelleted diet as a step towards husbandry standardization. *Scientific Reports*, 10.
